Your One-Stop Engineering, Repair
and Component Solution

ABOUT INTRA TRADE AFRICA

ITA IS A ONE-STOP SOLUTION

to our customers with the need to salvage or repair powertrain components, hydraulic cylinders, and or require general engineering work on conventional machines or production components that require CNC machining capabilities.

We also offer suppliers advanced coating technologies through Arc and HVOF thermal spray solutions. Intra Trade Africa has 26 years of cylinder, powertrain, and general machining experience and has specialized suppliers servicing us.

We offer a diverse service to any customer and manage the supplier's expectations from start to end.

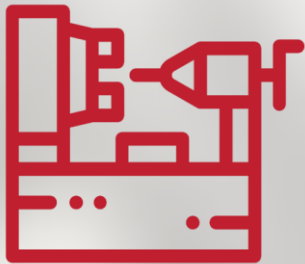

Intra Trade Africa services the entire SADC region from its base of operations in South Africa. We access an advanced logistical network to move materials, components and parts to where they are needed.

INTRA TRADE AFRICA

OUR SERVICES

intratrade.co.za

Engineering Works

We offer conventional turning and milling solutions and well as CNC production work on milling, lathe, and machining centers.

Thermal Spray

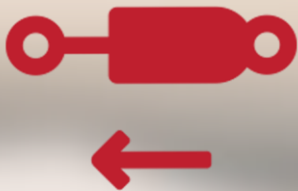

We offer arc spray solutions for customers on the seal and bearing journal areas and rebuild of printing and paper rolls. We offer HVOF process as a chrome replacement solution on hydraulic cylinder rods, shafts, and printing or paper rolls. We also supply wear and impact resistant coatings like tungsten and chrome carbides on various components.

INTRA TRADE AFRICA

OUR PRODUCTS

intratrade.co.za

Hydraulic Cylinders

We offer new and salvage cylinders, hydraulic cylinder tubing, chromed and thermal spray on hydraulic rods, and chrome stock.

Powertrain Components

Salvage and rebuild components like final drives, wheel stations, diffs, axles, brake groups, torque converters and transmissions with OEM parts or local parts as per customers requirements.
